Sumitomo Electric Industries, Ltd.

Sumitomo Electric Exhibits at the Automotive Engineering Exposition 2019

Sumitomo Electric Industries, Ltd. will participate in the Automotive Engineering Exposition 2019, held in both Yokohama (May 22-24 at Pacifico Yokohama) and Nagoya (July 17-19 at Port Messe Nagoya).

The exposition is one of the largest events presenting automotive technologies in Japan, featuring automotive products and technologies from all over the world.

Sumitomo Electric, together with its subsidiaries Sumitomo Wiring Systems, Ltd. and Sumitomo Riko Co., Ltd., will participate in the exposition. For contributing to "a safe and secure society," "a green society" and "a comfortable and viable society," we will introduce our wide range of "connecting" efforts made in various fields from electricity and information infrastructure to components and materials. We will also propose applications of high polymer materials.

We look forward to seeing you at our booth.
